React.js , Next.js, React Native Tailwind Css, AOS, Framer Motion, jQuery, Redux, Figma, Bootstrap, Firebase, Git and Github

## LANGUAGES

English, Yoruba

## EDUCATION

### **ALX AFRICA, — SOFTWARE ENGINEERING PROGRAM**

MAY 2023 till date

Software development methodologies: Python, C, Linux and Shell

- Engaged in an intensive Software Engineering program covering various software development methodologies.
- Acquired proficiency in Python, C, programming languages.

### **CODEWEB CODING ACADEMY, — WEB DEVELOPMENT PROGRAM**

September 2021 - September 2023

- Completed a comprehensive program in web and software development.
- Gained practical skills in HTML, CSS, JavaScript, React.js, Redux, Next.js, React Native, Typescript, PHP basics, MySQL, .NET, Git, and GitHub.

### **TRUELIGHT COLLEGE, LAGOS — HIGH SCHOOL DIPLOMA**

Graduated with a high school diploma, gaining a strong foundation in general education.

## MAJOR PROJECTS

### **Nigerian Computer Society Election Portal**

Role: Frontend Engineer, Codeweb Project Solutions

- Engineered the user interface of the election portal for NCS committee members, employing Vanilla HTML and Tailwind CSS for a modern design.
- Implemented dynamic functionalities using PHP, contributing to a seamless voting experience.

- Collaborated within a team at Codeweb Project Solutions, utilizing Git and GitHub for efficient version control.
- Ensured responsive design principles for accessibility across devices.
- Overcame development challenges through effective communication, maintaining project timelines.
- Enhanced transparency and security in the election process through robust development practices.

## **Living Faith Church Online Offering System**

Role: Frontend Engineer

- Sole frontend engineer responsible for the design and implementation of an online offering and tithe payment system for Living Faith Church Nigeria.
- Utilized ReactJS for dynamic and interactive user interfaces, and Tailwind CSS for modern and responsive design.
- Integrated with backend APIs to enable seamless functionality, allowing pastors and church officers to record church revenue after every service.
- Implemented a statistics module for viewing comprehensive church revenue insights.
- Contributed to the efficiency and transparency of financial processes within the church.
